- Entrepreneurship: Creating websites for personal projects or startups.
- Continuous Learning: Keeping up with the ever-evolving field of web development.

VICITE and workshop CodeGen international

🍂 Friday , November 29 , 2024

🤖 CodeGen International

🤖🌿 Adjust the environment it needs according to the environment around you.. For that.. Make the most of your opportunity.

Python Workshop

Recently we were able to successfully complete the program

" MINDMEISTER "

organized by us , the first year batch of Health Information and Communication Technology degree in our university.

Learning management system

I have developed my own Learning Management System (LMS) to enhance the educational experience for students and educators.
